

Industrial Gases And Cylinders

Gases & Gas Cylinders

We are offering these industrial gases and cylinders in an innovative range. The various gases, which can be used to fill up the cylinders, are: oxygen, hydrogen, nitrogen, argon, nitrous oxide, carbon monoxide, helium, compressed air, medical oxygen and many more others. These cylinders are used in varied industrial applications.

Industrial Gases And Its Cylinders on Loan Basis /Outright sale with certificates.

| | | | | |
|--------------------------------------|----------------|-------------------|--------------------|---------------|
| Oxygen | Acetylene | Nitrogen | Argon | CO2 |
| Hydrogen | Helium | Compressed Air | Medical Oxygen | Nitrous Oxide |
| Liq. Nitrogen (with Can) | UHP Gases | Calibration Gases | Mixed Gases | Propane |
| Hydrochloric Acid | Methane | Ethane | Ethylene | Propylene |
| Cis -2-Butene | Iso Butane | N - Butane | Iso Butylene | 1 Butene |
| H ₂ S | CO | Neon | Krypton | Phosgene |
| Boron Trifluoride (BF ₃) | Trans-2-Butene | Freon | Fire Extinguishers | |
| Chlorine | Ammonia | Ethylene Oxide | Sulphur Dioxide | |

| No | Containers | Make | Capacity | Filling Pressure |
|----|-------------------------|--------------------------|-------------------------------------|----------------------------|
| 1 | Disposable Gas Canister | Aluminum | 500ml | 20, 40 kgs / cm |
| 2 | Steel Sampling Bottles | S.S. 316 | 100ml, 250ml, 500ml | 120 kg / cm |
| 3 | Cylinders | Carbon Steel Aluminum | 3, 10, 47 ltrs. W/C 10 ltrs. W/C | 130 kg / cm 130 kg / cm |
| 4 | Glass Ampoules | Glass | 5 to 7 ml | |
